

Orbisa offers buy-side market participants a view into securities lending market activity. Orbisa's data set is curated from a premier trading platform and market data provider in the securities finance industry. Our market-leading vantage point, coming from the intersection of leading prime brokers, agent lenders and beneficial owners, has been distilled into a data set to help managers be better informed of the supply and demand dynamics for the securities that comprise their portfolios.

- ◆ \$36 trillion in lendable assets
- ◆ \$2.5 trillion securities on loan
- ◆ 50+ global markets
- ◆ 201,154 unique securities

AS OF JUNE 2024

Focusing on the flows of the institutional market provides Orbisa users deeper insight into broker-to-broker activity, the lending community and more.
